

## Dynamic imaging

account name      file name      use & to separate options  
 https://demo.sirv.com/Examples/example.jpg?w=1200&ch=300&cy=center  
    folder path      use ? to add options

## General

<b>profile</b>	=ProfileName	Set of options
<b>info</b>		Display metadata

## Scale

<b>w</b>	=300 (px / %)	Width
<b>h</b>	=400 (px / %)	Height
<b>scale.option</b>	=ignore	Scaling options
<b>s</b>	=587	Resize by longest dimension

## Crop

<b>ch</b>	=150 (px / %)	Crop height
<b>cw</b>	=78 (px / %)	Crop width
<b>cx</b>	=40	Crop from top
<b>cy</b>	=center	Crop from left
<b>autocrop</b>	=true	Crop to detected edges
<b>thumbnail</b>	=220	Square thumbnail

## Quality &amp; Format

<b>q</b>	=0-100	Image quality (%)
<b>format</b>	=jpg	Image type
<b>webp-fallback</b>	=png	If original is WebP
<b>progressive</b>	=true	Progressive JPEG loading
<b>subsampling</b>	=4:2:2	Chroma subsampling
<b>png.optimize</b>	=true	PNG optimization
<b>png.filtering</b>	=adaptive	PNG filtering options
<b>filter</b>	=Catrom	Resize filter

## Effects

<b>rotate</b>	=-50	Rotation degree
<b>brightness</b>	=25	Brightness
<b>contrast</b>	=17	Contrast
<b>exposure</b>	=34	Exposure
<b>hue</b>	=-45	Hue
<b>saturation</b>	=8	Saturation
<b>lightness</b>	=13	Lightness
<b>shadows</b>	=26	Shadows
<b>highlights</b>	=22	Highlights
<b>grayscale</b>	=true	B&W image
<b>opacity</b>	=50	Opacity of PNG
<b>blur</b>	=14	Blurred image
<b>vignette.value</b>	=9	Depth of vignette
<b>vignette.color</b>	=orange	Vignette color

## Color tone

<b>colortone</b>	=sepia	Preset color tones
<b>colortone.color</b>	=e8e8e8	Color tone layer
<b>colortone.level</b>	=45	Color tone blending
<b>colortone.mode</b>	=highlights	Solid or partial tone
<b>colorize</b>	=yellow	Overlay a color
<b>colorize.color</b>	=red	Color overlay
<b>colorize.opacity</b>	=30	Color opacity

## How to embed an image

Insert an image in HTML:

```

```

## Text

<b>text</b>	=Hello world!	Text overlay
<b>text.align</b>	=left	Align multiline text
<b>text.color</b>	=f0f0f0	Text color (HTML, hex)
<b>text.opacity</b>	=0-100	Text opacity
<b>text.size</b>	=48 (% / px)	Text size
<b>text.font.size</b>	=70	Width of text
<b>text.font.style</b>	=italic	Text style
<b>text.font.family</b>	=Lobster	Google text font
<b>text.font.weight</b>	=700	Font weight
<b>text.position</b>	=northwest	Text position
<b>text.position.gravity</b>	=center	Master location
<b>text.position.x</b>	=56 (% / px)	Shift from left
<b>text.position.y</b>	=-78 (% / px)	Shift from top
<b>text.outline.width</b>	=14	Outline around text
<b>text.outline.color</b>	=white	Text outline color
<b>text.outline.opacity</b>	=40	Text outline opacity
<b>text.outline.blur</b>	=24	Text outline edge blur
<b>text.background.color</b>	=c40243	Text background color
<b>text.background.opacity</b>	=33	Background opacity

## Watermark

<b>watermark</b>	=/sirv.png	Path to watermark
<b>watermark.position</b>	=tile	Watermark position
<b>watermark.rotate</b>	=45	Rotate watermark
<b>watermark.opacity</b>	=38	Watermark opacity
<b>watermark.layer</b>	=back	Located at front/back
<b>watermark.scale.width</b>	=63 (% / px)	Watermark width
<b>watermark.scale.height</b>	=150 (% / px)	Watermark height
<b>watermark.scale.option</b>	=ignore	Scale watermark
<b>watermark.canvas.color</b>	=orange	Background color
<b>watermark.canvas.opacity</b>	=85	Background opacity
<b>watermark.canvas.width</b>	=1700 (% / px)	Canvas width
<b>watermark.canvas.height</b>	=150 (% / px)	Canvas height
<b>watermark.crop.x</b>	=89	Crop from top
<b>watermark.crop.y</b>	=17%	Crop from left
<b>watermark.crop.width</b>	=115	Watermark width
<b>watermark.crop.height</b>	=780	Watermark height

## Frame

<b>frame.style</b>	=mirror	Frame around image
<b>frame.color</b>	=f23401	Frame color
<b>frame.width</b>	=12%	Frame width
<b>frame.rim.color</b>	=black	Frame rim color
<b>frame.rim.width</b>	=4	Frame rim width

## Canvas

<b>canvas.width</b>	=2500 (px / %)	Canvas width
<b>canvas.height</b>	=360 (px / %)	Canvas height
<b>canvas.color</b>	=03510c	Canvas color
<b>canvas.position</b>	=southwest	Canvas position
<b>canvas.opacity</b>	=56	Canvas opacity
<b>canvas.border.width</b>	=114	Canvas border width
<b>canvas.border.height</b>	=26%	Canvas border height
<b>canvas.border.color</b>	=purple	Canvas border color
<b>canvas.border.opacity</b>	=24	Canvas border opacity

## How to add a responsive image

Insert a responsive image in HTML:

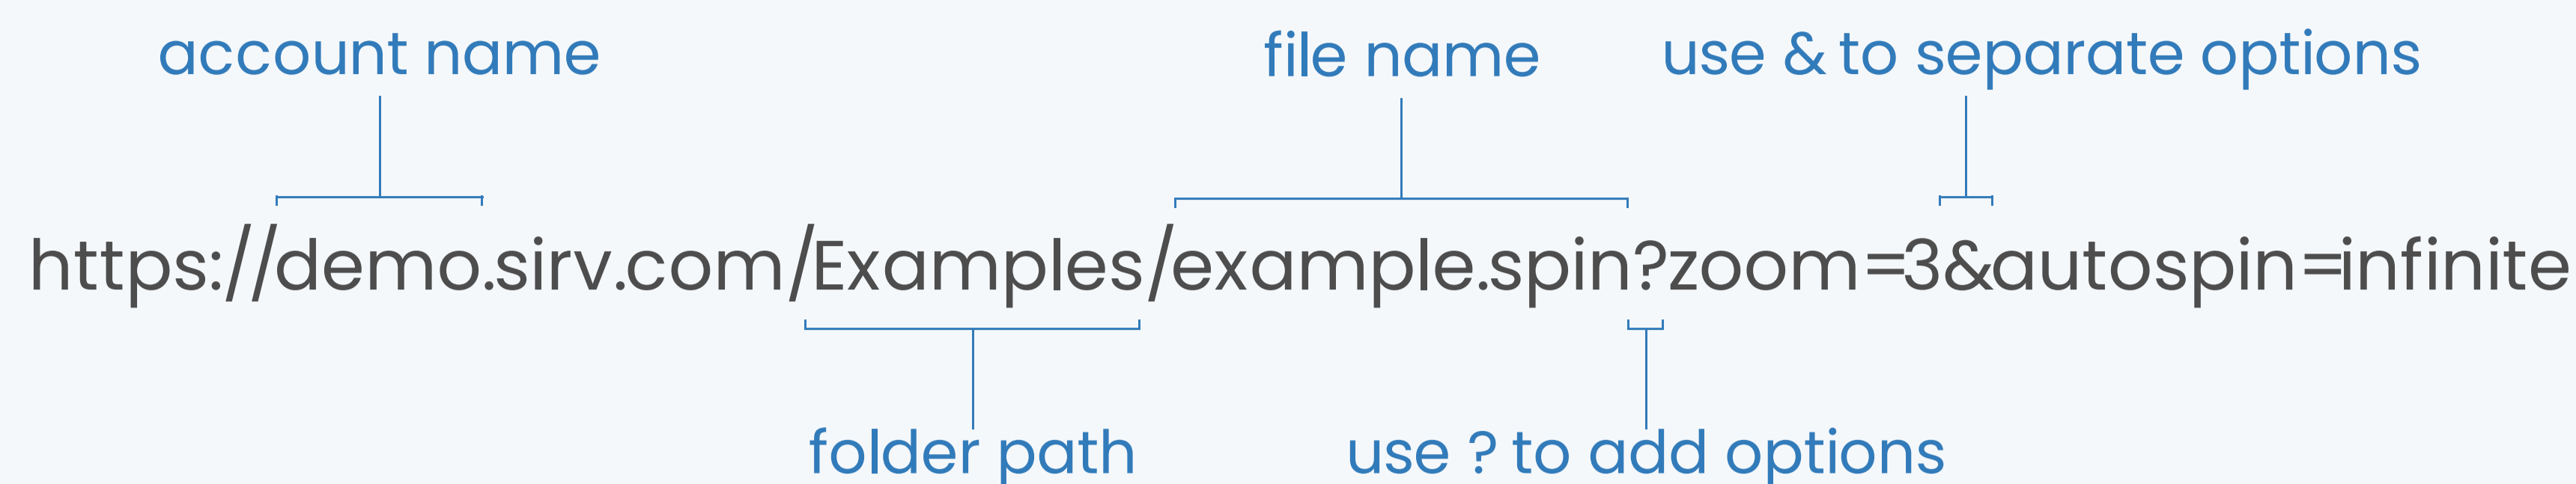

```
<script src="https://scripts.sirv.com/sirv.js"></script>

```

# Sirv Spin

## Spin URL

### Spin options

<b>spin</b>	=hover	Spinning method
<b>spinOnAnyDrag</b>	=true	Any direction rotation
<b>startColumn</b>	=7	First image (column)
<b>startRow</b>	=3	First image (row)
<b>loopColumn</b>	=false	Continue from beginning
<b>loopRow</b>	=true	Continue from beginning
<b>initializeOn</b>	=click	Start on drag/hover/click
<b>speed</b>	=70	Dragging speed of spin
<b>reverseRotation</b>	=both	Reverse spin direction
<b>swapRowsColumns</b>	=true	Display vertical spin
<b>rightClick</b>	=true	Show right-click menu
<b>mousewheelStep</b>	=2	Mousewheel frame jump
<b>image</b>	=48	Display spin as GIF

### Messages

<b>loadingText</b>	=Spin loading	Loading text
<b>fullscreenLoadingText</b>	=Large spin	Fullscreen loading text
<b>hint</b>	=false	En/disable hint message
<b>hintText</b>	=Drag	Text on desktop
<b>mobileHintText</b>	=Swipe	Text on mobile

### Fullscreen and zoom

<b>fullscreen</b>	=false	En/disable fullscreen
<b>zoom</b>	=5	Zoom magnification

### How to embed a spin

1. Insert the Sirv script before the </head> of your web page (or elsewhere):

```
<script src="https://scripts.sirv.com/sirv.js"></script>
```

2. Insert a spin on your page using a div:

```
<div class="Sirv" data-src="https://demo.sirv.com/Examples/example.spin">
</div>
```

### Auto spin

<b>autospin</b>	=infinite	Number of autospins
<b>autospinSpeed</b>	=7200	Rotation time (ms)
<b>autospinStart</b>	=click	Method to start autospin
<b>autospinStop</b>	=hover	Method to stop autospin
<b>autospinDirection</b>	=anticlockwise	Direction of rotation

# Sirv Zoom

### Zoom options

<b>zoom-on-wheel</b>	=false	Zoom with mousewheel
<b>fullscreen</b>	=false	En/disable fullscreen
<b>fullscreen-only</b>	=true	Instant fullscreen
<b>click-to-zoom</b>	=2	Clicks to zoom in

### Thumbnails

<b>thumbnails</b>	=left	Thumbnail position
<b>thumbnails-orientation</b>	=vertical	Thumbnail orientation
<b>squareThumbnails</b>	=false	Make thumbnails square

### Map and hints

<b>contextmenu</b>	=false	En/disable context menu
<b>map</b>	=true	En/disable navigation map
<b>mapSize</b>	=15	Size of navigation map
<b>textZoomIn</b>	=See more	Zoom-in text
<b>textZoomOut</b>	=See less	Zoom-out text
<b>textEnterFullscreen</b>	=Fullscreen	Enter fullscreen text
<b>textExitFullscreen</b>	=Exit	Exit fullscreen text
<b>textDownload</b>	=Save image	Text to download image

### How to embed a zoom

1. Insert the script before the </head> (or elsewhere):

```
<script src="https://scripts.sirv.com/sirv.js"></script>
```

2. Insert the Sirv Zoom on your page using this code:

```
<div class="Sirv" data-effect="zoom" >
  
  <!--  -->
</div>
```

# Top tips

- Use right-click to access common tasks.
- Use Ctrl+A to select all items.
- Use multiple folders & keep below 5,000 items per folder.
- Upload directly to [my.sirv.com](https://my.sirv.com), or use FTP or S3.
- Uploaded ZIPs will self-extract.
- Add ?info to image URL to see its metadata.
- Learn more at [sirv.com/help](https://sirv.com/help)
